Hi! I'm Numnarayan Kandel, a BSc CSIT student at Bhaktapur Multiple Campus. I love creating cool stuff on the internet, especially making websites look awesome. I'm really into the latest tech trends and always making sure my websites are super easy to use. Let's team up and make the web more exciting and user-friendly together!

EDUCATION

Bsc.CSIT

Bhaktapur Multiple Campus

Bhaktapur, Nepal

Oct, 2020 - Present

Higher School Level

Rehdon School and college

Kathmandu

Mar, 2018 - May, 2020

PROJECTS

Waste Management System

I've worked on the waste management system project where user both user and municipality can get information about the bin and help in waste management. I worked Using React js and Tailwind CSS collaborating with other fellow colleagues.

Portfolio Website

I'm in the process of developing my own portfolio, a digital space where I present my skills, projects, and experiences. It's a platform designed to offer visitors a clear insight into my professional journey and achievements, creating a compelling and informative online presence. <https://github.com/Nawaraj-kandel/portfolio>

Flight Price Prediction System

As the part of final project of BSc.CSIT I worked on this project as a frontend developer where I use the React js , Tailwind for creating the user Interface with collaboration with my teammates. We developed the overall project using React js, Rest API, and ML as Random forest algorithm.
